CHAPTER 1 Daily Operations Runbook & Health Checks

🕒 12 MIN READ

1.1 08:00 UTC Morning Operational Checklist

Every morning, the Platform Operations Manager must execute the following 5-point health check:

- **API Gateway Status:** Verify all 20+ supplier health bars are green in the Admin Console.
- **Rate Parity Variance Audit:** Review automated price comparison scans. Ensure our wholesale rates are at least 15% to 60% below Expedia/Booking.com.
- **Booking Reconciliation:** Match reservations booked in ATLAS against bedbank supplier confirmations.
- **Stripe Issuing Balance:** Confirm operating balance has at least \$50,000 for member card spending.
- **AI Concierge Audit:** Review unresolved VIP concierge tickets on Telegram and WhatsApp.

MANDATORY OPERATOR CHECKLIST

3 ACTION ITEMS

- ✓ Open Admin Console at /admin and inspect System Health Tab
- ✓ Verify live FX exchange rates are updated
- ✓ Confirm all overnight bookings have confirmed B2B voucher numbers

2.1 The 20% Profit-Sharing Model

Unlike public OTAs that pocket 100% of profits, ATLAS pools **20% of net company profits** into the Sovereign Dividend Vault to distribute back to members annually.

2.2 Dividend Formula

Member Dividend = (Individual Annual Spend / Total Club Member Spend) * Total Vault Pool

2.3 Executing Batch Payouts

- In Admin Console > **Sovereign Vault Manager**.
- Click "**Calculate Quarterly Allocations**".
- Review audit table of qualifying members and their dividend amounts.
- Click "**Execute Batch Payout via Wise / Stripe**" or deposit directly onto the member's ATLAS Visa card balance.

3.1 Physical Metal Card Specifications

- **Material:** 18-gram Matte Black Stainless Steel with Laser-Etched Member Name & ID.
- **NFC Technology:** Embedded dual-interface chip supporting contactless tap-to-pay and Apple/Google Wallet provisioning.

3.2 Fulfillment Workflow

- When a member reaches VIP or Patron tier, a card production ticket is generated in Admin Console.
- Verify shipping address and member name spelling.
- Dispatch engraving payload to our manufacturing partner (CompoSecure / Idemia).
- Enter DHL / FedEx Express tracking number into the member record to trigger shipping notifications.

MANDATORY OPERATOR CHECKLIST

3 ACTION ITEMS

- ✓ Review pending physical card dispatch requests in Admin Console
- ✓ Validate member shipping addresses and engraving text
- ✓ Assign courier tracking numbers and notify members

4.1 Automated Price-Drop Refund Processing

- When Pruvo detects a lower rate for an existing reservation, the system automatically creates a rebooking request.
- The Operations Manager reviews the savings delta in Admin Console > **Price Drop Refunds**.
- Approve rebooking: Old reservation is cancelled (under free cancellation terms) and new reservation is confirmed.
- 50% of the savings is credited to the member's wallet, and 50% is added to the Sovereign Vault pool.

4.2 Handling Check-in Inquiries

If a hotel front desk claims they cannot find a reservation under the member's name:

- Explain that the reservation is booked through the wholesale B2B bedbank allotment (e.g., Hotelbeds / WebBeds).
- Instruct the front desk agent to search by the **Bedbank Confirmation Reference Number** listed on the B2B Wholesale Voucher.
