

10-SLIDE INVESTOR PRESENTATION

ATLAS Travel Club LLC — Pitch Deck (Revised Edition)

ATLAS TRAVEL CLUB LLC • CONFIDENTIAL • PRE-SEED ROUND (\$75K / \$1.75M CAP)

SLIDE 1: Cover & Elevator Pitch

- Headline: ATLAS Travel Club — The Digital Costco for Travel.
- Sub-headline: Private membership club passing 100% of wholesale travel savings to members at 0% markup.
- Presenter: Pål Juritzen, Founder & Managing Member.
- Visual: Side-by-side comparison of 0% markup rates vs public Expedia/Booking.com benchmarks.

SLIDE 2: The Problem — The \$350B OTA Cartel Tax

- Booking Holdings & Expedia extract 15%–30% commissions on every public room reservation.
- Contractual Rate Parity forces hotels to maintain inflated retail prices on open channels.
- High-frequency leisure families, SMBs, and luxury travelers overpay thousands annually.

SLIDE 3: The Solution & Regulatory Arbitrage

- Closed-Loop Exemption: Under US Sherman Antitrust & EU Loi Macron (AT.40153), rate parity does NOT apply to closed-loop, password-protected membership clubs.
- Direct B2B Wholesale: Sourcing from Hotelbeds, RateHawk, WebBeds, and Duffel NDC at net clearing rates.
- Zero Markup: 100% net savings passed to subscribers; monetized purely via SaaS + interchange.

SLIDE 4: The Four High-Value Target Segments

1. Affluent Families & Vacationers (45%): \$8k–\$25k/yr spend; save \$1,500+ per 7-night vacation.
2. SMB Owners & Business Travelers (30%): \$15k–\$60k/yr spend; enterprise rates without corporate bureaucracy.
3. Luxury & Experiential Travelers (15%): \$30k–\$100k+/yr spend; 5-star suites, private villas, yacht charters.
4. Borderless Remote Professionals (10%): \$10k–\$30k/yr spend; extended stays, global 5G eSIMs, visas.

SLIDE 5: The Product — Phase 1 Built on Google Cloud

- Production web application built on Next.js, deployed on Google Cloud Run with Cloud SQL.
- Proprietary Rate-Parity Shield (AuthModal + Google Cloud Armor edge bot mitigation).
- AI Travel Concierge powered by Google Cloud Vertex AI (Gemini) with Function Calling.
