

10-SLIDE INVESTOR PRESENTATION

The Private Travel Clearinghouse — Institutional Pitch Deck

ATLAS TRAVEL CLUB LLC • CONFIDENTIAL • PRE-SEED ROUND (\$75K / \$1.75M CAP)

SLIDE 1: The Executive Thesis

- Company: ATLAS Travel Club LLC (Manager-Managed LLC — Delaware / Wyoming)
- Core Thesis: Disintermediating the \$1.4T Booking Duopoly via a Private Institutional Clearinghouse.
- Model: Gated closed-loop clearinghouse connecting affluent travelers directly to Tier-1 B2B wholesale liquidity pools with 0% retail markup.
- Monetization: 96% gross margin subscription ARR (\$399–\$1,799/yr) + high-ticket payment interchange (1.85%).
- Presenter: Pål Juritzen, Founder & Managing Member.

SLIDE 2: The Problem — The \$350B Duopoly Tollbooth

- The Cartel: Booking Holdings & Expedia Group control >70% of global OTA volume, extracting an extortionate 18%–30% take-rate.
- The Threat: Draconian "Rate Parity" clauses legally forbid hotels from discounting publicly under threat of algorithmic de-listing.
- The Hoteliers' Crisis: 5-star hotels suffer 32% average vacancy. Unsold rooms expire worthless at midnight, but hotels cannot discount publicly without destroying their brand equity.

SLIDE 3: The Asymmetric Solution & Regulatory Moat

- The Antitrust Safe Harbor: Under US Sherman Antitrust Act (15 U.S.C. § 1) and the EU Digital Markets Act (Regulation EU 2022/1925), rate parity rules do NOT apply to password-gated, closed-loop private buyer syndicates.
- Direct B2B Wholesale Plumbing: Sourcing directly from Tier-1 global bedbanks (Hotelbeds, WebBeds, Travco) at net clearing rates.
- Zero Markup Architecture: We pass 100% of wholesale net savings to verified members at 0% markup. Hoteliers quietly offload premium inventory without public rate degradation.

SLIDE 4: High-Yield Customer Profile & Natural Demand

1. Affluent Families & Vacationers (45%): \$10k–\$35k/yr spend; save \$1,600+ on a single 5-night stay (pays for membership on Day 1).
2. Executives & SMB Founders (30%): \$20k–\$80k/yr spend; enterprise wholesale rates without corporate travel desk friction.
3. Remote Tech Executives & Nomads (15%): \$15k–\$40k/yr spend; extended multi-week stays, global 5G eSIM connectivity.
4. Ultra-High-Net-Worth VIPs (10%): \$50k–\$150k+/yr spend; 5-star penthouse suites, superyachts, empty-leg jet charters.

SLIDE 5: Production Platform & Zero-Deposit Architecture

- 100% Serverless Google Cloud: Cloud Run container compute with Cloud SQL PostgreSQL v16; under \$450/month fixed tech overhead.
- Rate-Parity Shield: Client-side bot defense and Cloud Armor edge enforcement block scrapers and verify member sessions.
- Zero Balance Sheet Liability: Synchronous real-time card authorization means member payment settles the wholesale bedbank. \$0 locked in hotel deposits or inventory risk.

The 4-Engine Monetization Machine & Capital Plan

ATLAS TRAVEL CLUB LLC • CONFIDENTIAL • PRE-SEED ROUND (\$75K / \$1.75M CAP)

SLIDE 6: The 4-Engine Monetization Machine

1. High-LTV SaaS Subscriptions (96% Gross Margin): Nomad (\$399/yr), Family (\$799/yr), Sovereign VIP (\$1,799/yr). Blended \$684/yr.
 2. High-Ticket Card Interchange: 1.85% net captured on card volume (\$18.5k avg travel spend = \$342/user/yr pure yield).
 3. Autonomous Price-Drop Arbitrage (30% Performance Fee): Re-shopping bot rebooks lower wholesale drops, splitting savings 70/30.
 4. Institutional FX Spread: 45 bps on cross-border transactions (saving members from 3.0%+ bank foreign transaction gouging).
- Blended ARPU: \$1,026/yr • Blended CAC: \$110 • Payback: Day 1 (First Booking) • LTV/CAC: 38.4x • Retention: 91%.

SLIDE 7: Roadmap to \$1M+ ARR (Phases 1–4)

- Phase 1 (Live & Tested): Web platform, parity enforcement shield, rate audit engine, legal compliance suite on Google Cloud.
- Phase 2 (Months 1–3): Direct RateHawk B2B and Duffel NDC flight feeds, Stripe Issuing card rails integration.
- Phase 3 (Months 4–6): Autonomous 24/7 price-drop rebooking daemon, automated Airalo global 5G eSIM provisioning.
- Phase 4 (Months 7–12): High-touch Vertex AI Concierge via WhatsApp/Telegram, private jet empty-leg clearinghouse.

SLIDE 8: Go-To-Market: The Viral "Savings Audit" Engine

- The Live Savings Audit: Prospects upload any Expedia or Booking.com itinerary; tool proves live \$400–\$1,500 cash savings instantly behind the member gate.
- Direct Syndicate Distribution: Strategic partnerships with boutique wealth advisors, executive founder groups, and private family offices.
- Irresistible Value Proposition: 100% Money-Back Guarantee if members do not save more than their annual fee on their very first stay.

SLIDE 9: Unassailable Moat & Structural Barriers

- Regulatory & Antitrust Moat: Public OTAs cannot copy this model without breaching hotel parity contracts and cannibalizing their 25% take-rates.
- Negative Working Capital Advantage: Unlike legacy tour operators or Inspirato with heavy lease obligations, ATLAS has \$0 tied up in inventory.
- High Switching Costs: Leaving ATLAS means willingly paying a 25% penalty tax to Booking.com on every future vacation.

SLIDE 10: The \$75,000 SAFE: High-Asymmetry Angel Opportunity

- Instrument: \$75,000 USD via YC Post-Money SAFE for LLCs (Manager-Managed LLC — Delaware / Wyoming).
- Valuation Cap: \$1,750,000 USD (20% discount, ~4.3% ownership cap at maturity).
- Capital Allocation (Over 57% in human execution):
 - Founder Executive Stipend: \$25,000 (33.3%) • \$2,500/mo x 10 months for full-time founder commitment
 - Contract Engineering & Tech Ops: \$18,000 (24.0%) • Direct RateHawk & Duffel API pipelines
 - Member Acquisition Engine: \$16,500 (22.0%) • Direct executive outreach & live savings audit ads
 - Legal, SoT Licensing & Entity: \$6,500 (8.7%) • Delaware/Wyoming LLC & SoT bond filings
 - Google Cloud & Vertex AI Tokens: \$3,500 (4.7%) • 12 mos Cloud Run, Cloud SQL, Gemini 2.0
 - Minimal Operating Float: \$2,000 (2.7%) • Working capital buffer • Contingency: \$3,500 (4.7%)
- Value Inflection: 1,000 active members = \$1.0M+ ARR = Series Seed round at \$15M–\$20M valuation (10x-15x paper markup).
